

PerTPV – Perovskite thin film photovoltaics  
Grant agreement 763977

## Deliverable 6.1

# Project Website Launch

WP6

**Lead beneficiary:** UOXF

**Authors:** Bernard Wenger/Clare Moloney/Henry Snaith

**Delivery date:** 30/6/2018

**Confidentiality level:** Public

## Revision History

<b>Author Name, Partner short name</b>	<b>Description</b>	<b>Date</b>
Clare Moloney, UOXF	Draft deliverable	27/06/2018
Bernard Wenger, UOXF	Revision 1	27/06/2018
Bernard Wenger, UOXF	Final version	29/06/2018

## D6.1 – Project Website

A project website <https://pertpv.web.ox.ac.uk/> has been created to maximise the profile, visibility and dissemination of the work produced by PerTPV and to facilitate effective coordination of the project.

The website incorporates information which can be accessed by the public describing the science and technology behind the PerTPV concept and introducing the consortium.

Together with the launch of the project website, we have set up a Twitter account (<https://twitter.com/PerTPV>) which will help us bring attention to updates on the main website and also disseminate quickly, news from the project.

Project partners will have access to a password protected file sharing area which they will be encouraged to use throughout the project to upload files, publications, discuss aspects of the project with other partners as well as highlighting any significant developments.
